Mitigating Space Debris

SmallSat Side Meeting

Hosted by Mudd Law | Presented by Charles Lee Mudd Jr.

smallsat.muddlaw.com

We will be discussing the new orbital (US) or space (EU) debris rules issued by the Federal Communications Commission (“FCC”) which can be found at https://mlo.bz/us2020debris.

Comments on the proposed collection of information under these rules must be submitted by email on or before September 11, 2020 (https://beta.regulations.gov/document/FCC-2020-0290-0001) and, in particular, can address:

- whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility [...]
- ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, [particularly], ways to further reduce the [...] burden on small business[es] with fewer than 25 employees.

You may also choose to review the UNOOSA compendium of space debris guidelines available at https://mlo.bz/unoosadebris.

If you would like to submit comments or questions during the Mitigating Space Debris SmallSat Side Meeting, please use the Q&A function available through Zoom. If you would like to submit comments or questions before or after the meeting, please email charles@muddlaw.com.

The meeting will be conducted in a manner that follows any applicable SmallSat policies and that, in particular, respects everyone and every opinion.
